How climate change will impact Evanston and your constituents: Learn more and weigh in

**Wednesday, May 9, 9 to 10:30am
(check-in & breakfast beginning at 8:30 am)
Lower Level Dining Room, 1560 Sherman Ave.**

rsvp@evanstonforever.org

This meeting is a unique opportunity for all nonprofits that serve the Evanston community, and not just for organizations that focus on the environment. ECF invites the entire nonprofit community to meet with Kumar Jensen, the City of Evanston's sustainability coordinator, about the anticipated impact of climate change on Evanston and how we can work together to respond to these challenges. As organizations that serve Evanston, it's important to be engaged in this issue. While climate change will impact everyone, vulnerable populations will be impacted the most. Nonprofits are already leading the way in strengthening Evanston's social resilience, but climate change will exacerbate existing issues and create new ones. We need to be prepared.

The Mayor's Climate Action and Resilience Plan Working Group (CARP), along with the City's Office of Sustainability, have identified strategies for our community to lower carbon emissions and work on climate change responses. CARP wants to know the challenges that you and your organizations face, how they may be increased by climate change, and work together to identify the best solutions. This meeting is a great first step in that effort.

More information about CARP's process can be found at cityofevanston.org/government/climate or you can email sustainability@cityofevanston.org.

**Join us for this year's final
FREE workshop on Thursday, June 21:
Tracking Success: Moving Past Overhead to Measure
Impact**

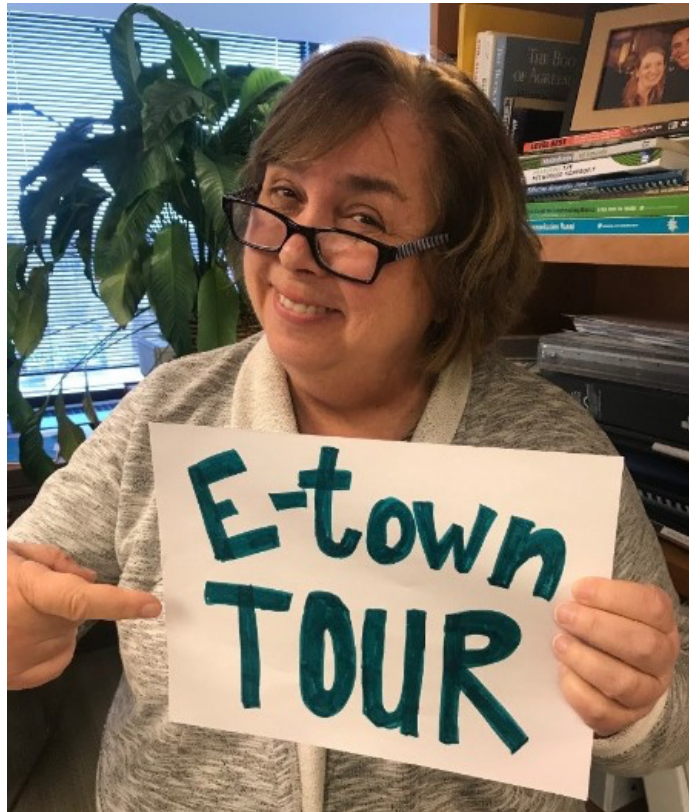

Charity Navigator burst onto the nonprofit scene in the 1990's and brought new scrutiny to how much nonprofits spent on overhead. Now the tide is turning and it's becoming more understood that some types of overhead, like marketing and investment in staff, are necessary if nonprofits are to grow and thrive. But without using overhead as a guide, how can you measure the efficiency or overall health of a nonprofit? In this session, we'll give you some tools you can implement to demonstrate or measure your nonprofit's impact and growth. Facilitators: Marilyn Foster Kirk, M.Ed. CFRE and Amy Funk.

Join ECF for a unique Evanston bus tour & lunch on Saturday, May 19

See Evanston as you've never seen it before with this custom *Snapshot Evanston* tour! Learn the fascinating history of our community and see how Evanston's past and present connect. Join Vice-President of Programs, Marybeth Schroeder, as she leads the bus tour. Following the tour, ECF's President and CEO, Monique Jones, will share her observations about Evanston at a local Evanston restaurant.

Hosted by ECF Board Members: Judy Aiello-Fantus, Jabbar Bennett, Bill Blanchard, Michael Brody, Matt Feldman, Pete Henderson, Bart Rocca, Larry Singer and Michael Walker

New Tax Law: Have You Done Your Paycheck Check-up Yet?

The new federal [tax law](#) altered individual tax brackets, increased the standard deduction, removed personal exemptions, increased the child tax credit, limited or discontinued certain deductions, and changed the tax rates overall. The [IRS' Withholding Calculator](#) can help prevent your employees from having too little or too much tax withheld from their paychecks. The final page of the calculator

provides an estimate of 2018 taxes and has a link to the new form W4. If an employee needs to adjust his or her withholding, submitting a new W4 as soon as possible means there's more time for tax withholding to take place evenly during the course of the year.
